Wow, where has all the time went. It seems like only yesterday I was plowing snow out of the drive, riding snowmobiles, and trying to figure out how to take enough snacks on the trails for Hogg all day. But here it is folks, its PULLING SEASON BABY! It's time to put the finishing touches on the rigs and hit the road. As you're getting ready to go I'd like to remind all of you to double check all your safety equipment to make sure it is on the vehicle, installed properly, and working. Let's make sure we have a safe pulling season.

Let's also remember to be professional in our approach to pulling this season. Maybe a little new paint to spruce up your ride, maybe a set of nice crew shirts, or some t-shirts with a picture of your puller on it to sell to the fans. And the fans, don't forget to spend some time talking with the fans this summer, without them it wouldn't be much fun going pulling. Also remember that someone is always watching you at the pulls and many times it is a kid that is looking up to you, or a sponsor or promoter, so watch what you say and do at the pulls—remember to be professional.

I am looking forward to seeing all of you this summer and working with the sponsors and promoters again. It's going to be a great summer so come on out and enjoy the fun of pulling with the OSTPA Family.

Thanks, Frank.

Workers' Uniforms

The Executive Board this year has ruled that all workers will be required to wear black pants with their official OSTPA work shirt. "Lucas Oil" pants have been ordered from PPL for the competition directors, tech officials, flagmen, and drawbar/scale workers. You can pick up your

worker's pants in the entry trailer at the first event you work. Pants will be stored in the cabinet and labeled with your name on them. If you still need to order a size, please contact the OSTPA office immediately. All other workers, including the women in the entry trailer and tower, are required to wear black pants or capri pants. No shorts are allowed.

Rulebooks in Entry Trailer

A 2010 rulebook has been printed. New members will receive a rulebook with your membership packet. Pulling veterans can pickup a new rulebook at the OSTPA entry trailer this summer.

Dear OSTPA Board

Thank you for recently selecting me as one of the OSTPA Scholarship recipients. Your scholarship will greatly help in paying for my school expenses. Once again, thank you!

– Sincerely, Kyle Gravatt

Thank You So Much

I just wanted to let you know that my college did receive my scholarship, and for that I want to send you all a thank you card. It means the world to me that I was chosen, you all truly are a part of my pulling family. Thanks again! Can't wait to see you this season.

– Harley Jerew, RTL Pulling Team

FFA Chapters Say Thanks

Our chapter recently placed second in the State Outdoor Power/Small Engines contest. We want to thank you for providing funds to help sponsor this contest. We appreciate your support of the FFA members in Ohio.

– Sincerely, Talawanda Outdoor Power Team, Conner Smith, Josh Russell, Dalton Parker

On behalf of the Amanda-Clearcreek FFA Chapter I would like to thank you for sponsoring the Outdoor Power Equipment CDE. Your continued sponsorship is greatly appreciated. Thank you again for your support of the FFA and agricultural youth.

On behalf of the Elmwood FFA we wish to thank you for sponsoring the 1st place banner for the state Outdoor Power Equipment contest. We had the privilege of earning this honor and are very appreciative of it. In order for us to earn it, we were required to learn as many things as possible in the small gas engines area. We then spent time working at 10 different stations testing our small engines knowledge. In addition to placing 1st as a team, J.R. was the 1st place individual, Grant ranked 2nd, and Tom was 4th. By participating in the contest, we not only learned a tremendous amount on outdoor power equipment, but also developed an appreciation for the value of extra effort. We're very pleased that you take the initiative to support the young people involved in agriculture and the FFA. We hope you continue to sponsor such worthwhile awards. Once again many thanks!

– Sincerely, Grant Harrison, J.R. Laborie, Tom Elgin
